AMGRAF SOFTWARE TECHNOLOGY

FORMS SOFTWARE TECHNOLOGY FOR PRINT MANUFACTURING, INDUSTRY, AND GOVERNMENT

Your Forms + Amgraf Solutions = SUCCESS!

Providing Software to Develop Database Connected HTML/PDF eForms; eForms Portal with Secure Client Access; Business Form & Security Document Design; Programming and Consulting Services

AMGRAF, INC. • 1-800-304-4797 • www.amgraf.com

Since 1976 Amgraf, Inc. has been a leading software development company in the business forms industry. Dedicated to adding value to the business forms community through our innovative solutions for the management, production, and utilization of forms, labels, and security documents. Many of the largest governmental agencies and print manufacturers in North America have chosen Amgraf software technologies for their forms design and management. Our form based solutions include:

ONEFORM DESIGNER PLUS SOFTWARE
Design & Deploy HTML/PDF Based eForms

Amgraf's OneForm Designer Plus

Amgraf's OneForm™ Designer Plus eForms software and the optional PDF Generator Module create HTML & PDF forms which support local printing, saving, database connectivity, web-based data presentation, intelligent data capture, online data submission, e-mail, and secure digital signing. The OneForm Designer Plus toolset creates intelligent e-Forms for web sites, and it automatically generates the web server scripts and database tables so that valuable information is submitted back to YOUR web site and into YOUR databases. *Users of Amgraf's OneForm Designer Plus HTML & PDF eForms require only a standard web-browser and the free Adobe Reader.*

KEY BENEFITS

• Unlimited Forms and Users	• Create New eForms	• Connect to Database Tables
• No Form Filler Required	• Overlay Input Fields	• Apply Electronic Signatures
• Import/Edit PDF Documents	• Real-Time Validations	• Link eForms as Packages
• Export as HTML or PDF	• Trigger Field Calculations	• E-mail Routing/Workflow

AMGRAF FORMS PORTAL SERVER SOFTWARE
Design & Manage eForms, Users, and Access Rights

Amgraf's Forms Portal Software

Amgraf's eForms Portal server license is the best way for any organization to manage their user's access to large repositories of eForms and data sets. The eForms Portal is a browser-based user interface that provides universal starting points for selecting, opening, filling, saving, printing, searching, and recalling a wide variety of OneForm HTML online forms. Administrators can easily control user access to individual forms or even entire classes of forms. *The Amgraf Forms Portal solution runs on your web server,* and can become the infrastructure for both your internal and external eForm workflows with routing, approvals, tracking and data reporting.

KEY BENEFITS

• Central Forms Repository	• Print Blank Forms	• Powerful Record Search
• Custom Portal Branding	• Save as DB Records	• Export/Print Records/Forms
• No Form Filler Required	• Save as "Flattened" PDF	• eForm Routing/Workflow
• Secure Access Controls	• Manage eForm Versions	• Controlled User Access

AMGRAF MECCA 2000 SOFTWARE
Business Form & Security Document Prepress Design Software

Amgraf's MECCA 2000 Software

Amgraf's MECCA™ 2000 software is specifically developed for professional prepress groups within the business forms industry. MECCA 2000 integrates composition functions for manufactured business forms, variable-data merged forms, flexographic labels, and security document composition. As an option the MECCA 2000 software supports creation of the LogoDot and NaNOcopy patented copy protection technologies. With it's powerful and programmable batch pagination engine, forms production from order-entry to plating can be entirely automated. Finished designs are output as flawless color-separated negatives, printing plates, or directly transmitted to digital presses for high-speed variable data imaging applications.

KEY BENEFITS

• Form Specific Design Tools	• Anticopy Protection Tools	• Print to File/Plate/Press
• Accuracy of 1/1000th Inch	• Microtext/Relief/Guilloche	• Batch Pagination Engine
• Spot & Process Colors	• Borders/Pantos/Ornaments	• Automated Form Design
• Barcode Creation Support	• Export PS, EPS, PDF, TIFF	• Hi-Speed Variable Data

AMGRAF'S VOIDMAKER ONLINE SERVICE
Online Service for Customized Photo-Copy Protection Artwork

Amgraf's VoidMaker Copy-Protection Artwork

Amgraf's VoidMaker™ is an online artwork delivery web service allowing registered print manufacturers to customize and purchase photocopy protection screens for almost any low to medium risk document.

Simply select a background pattern from our large library of standard pantographs, then choose the hidden message to be revealed when photocopied. Delivered are high-resolution artwork images ready for download within minutes. Included is a press/printer testing page, a library of varying density backgrounds, along with full usage instructions including FAQ's. Use your favorite layout program to place the VoidMaker screen into your design, then output to printer, plate, or press.

KEY BENEFITS

• One Time Purchase	• 24 Pantographs Available	• Full Documentation
• Royalty Free Usage	• 24 Messages Available	• Crop as Needed
• No Software to Buy	• Print Density Test Provided	• Eliminate Preprinted Paper
• Use Your Prepress Program	• Multiple Densities Supplied	• Custom Designs Available
