

NEED SPEED?

Amgraf's *OneForm Designer Plus* software powers the world's fastest user interface to convert paper business forms into web-enabled fillable, submittable, database connected e-forms for online data capture, data presentation, workflow, voice signatures, e-commerce, and on-demand print production.

No filler-licenses or other incremental license fees are ever required to use or print Electronic and Internet forms created with Amgraf's *OneForm Designer Plus*. No per-product or per-printer license fees are ever required to produce documents using Amgraf's *MECCA 2000* Integrated Electronic Publishing System.
