Accessibility Option

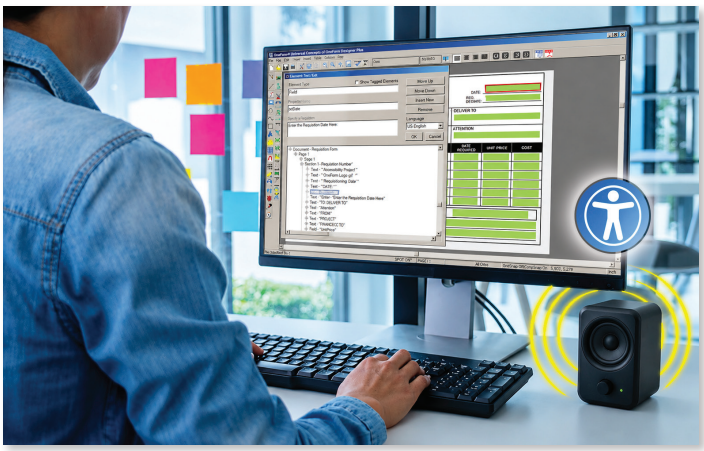

Create Accessible eForms for Inclusive Digital Experiences

Extend OneForm™ Designer Plus – Universal with accessibility features that help make electronic forms easier to **navigate, understand, and complete for all users.**

The Accessibility Option is an optional extension for ***OneForm™ Designer Plus – Universal*** that simplifies the creation of accessible PDF forms by automatically generating and managing the document structures required by JAWS® screen reader software from Vispero and other assistive technologies. Organizations can enhance the usability of existing forms while supporting accessibility initiatives and maintaining the professional appearance of their documents.

Simplified Accessible Forms Design

The Accessibility Option streamlines the process of producing accessible eForms by integrating accessibility tools directly into the forms design toolkit. Designers can establish logical reading order, organize document structure, define accessible form elements, and generate the tagging information required for screen reader navigation—***all from within OneForm™ Designer Plus – Universal.***

Easily add and edit accessibility tags with OneForm™ Designer Plus – Universal.

Intelligent Accessibility Features

The Accessibility Option provides integrated tools that improve document accessibility throughout the initial design and fielding process.

- ✓ Automatic accessibility tag generation
- ✓ Logical reading order
- ✓ Document and section structure management
- ✓ Alternative text-to-speech support
- ✓ Screen reader field descriptions
- ✓ Accessibility tag editing and verification
- ✓ PDF export with embedded accessibility information

These capabilities reduce the time and effort required to prepare accessible electronic forms while improving consistency across documents.

Design Accessible Forms with Confidence

Combined with OneForm™ Designer Plus – Universal, the Accessibility Option provides organizations with the precise tools needed to create professional, accessible eForms that improve usability, support inclusive digital services, and conforms to Section 508 standards.

Business Benefits

Accessible forms allow organizations to provide a better experience for employees, customers, and members of the public who rely on assistive technologies. By integrating accessibility into the forms design process, organizations can produce more inclusive electronic documents while reducing manual remediation efforts and supporting accessibility compliance initiatives. The Accessibility Option enables designers to efficiently create professional eForms that work effectively in today's digital environments for all users.
